

SAX ARTISTS OILS COLOUR CHART

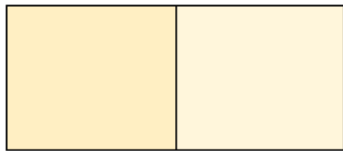

Oil colours available in 40ml and 200ml tubes

Manufactured since 1889, these oil paints are still made in small batches to ensure the highest possible standards. Colours display the individual characteristics of pigments and are a welcome alternative to homogenised ranges. Sax's recipes ensure oils are balanced to each pigment for optimum performance.

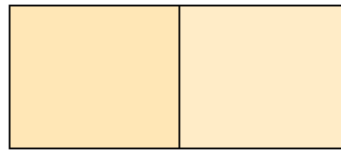

KEY: Swatch on left shows paint colour, swatch on right shows paint colour mixed 1:2 with zinc white

*fair lightfastness / **good lightfastness / ***very good lightfastness / A-B-C-D-E-F =Price series

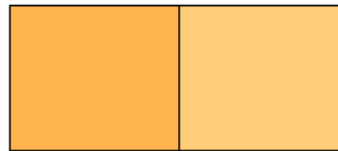

Please note on-screen colours only give an impression of actual painted colours and appearances vary between monitors /printers.
